VOL. XLIII.

PIOCHE, NEVADA, THURSDAY, JUNE 7, 1894.

NO. 38.

TELEGRAPHIC NOTES

DENVER, Colo. June 4. - Peace has been restored at Cripple Creek by an arbitration between Governor Waite and the mine owners. At the request of Governor Waite, the conference began at 8 o'clock and as soon as the party assembled the Governor aunounced that he was authorized to act for the miners, and consideration of many points were begun. The articles finally agreed upon provides that the miners shall work eight hours a day, with twenty minutes for lunch, that they be paid at the rate of \$3 per day, and that the mine owners employing men shall not discriminate against either union or non-union miners. The entire State militia is called upon to go to Cripple Creek and aid the Sheriff in restoring order.

TAHLBQUAH, I. T. June 4 .- One million six bundred thousand dollars of payments now repose in the freasurers office in the Cherokee State House and the corrider of the State House also the grounds are guarded by one hundred of the sorest shots in the service. The payments have already begun the Cherokees are pouring in from all sides most of them camping out of town. No less than 500 Cherokee babies have been born within the last three months, as every infant draws its per caspita, \$265.68, the same as any adult. Twelve days time will be allowed to finish the payments here and by September 1st the whole amount will be distributed.

Indianapolis, June 4. - The bank wreckers of this city were sentenced to five and ten years imprisonment. The president of the bank will be sentenced to-morrow. A. Coffin and Percival Coffin will be taken to the State penitentiary at 1 o'clock to-morrow afternoon.

VANCOUVER, B. C., June 4. - The Fraser river flood still continues and no sign of abatement can be seen. The loss of property has already reached four millions and the number of lives lost is estimated at 100. The Canadian Pacific Company has over 2000 men working night and day, and 480 miles along the railway is a watery waste.

PORTLAND, Or., June 3 .- Portland's concondition at this time is terrible. The merchants are working hard to save their goods and labor is in great demand at one dollar an hour. Three-fourths of the wholesale districts is under water from two to ten feet, and the water is making fast headway into the best part of the retail districts. Many merchants are unable to get lumber with which to build platforms to keep their goods out of water. The flood will interfere with the election which takes place tomorrow as many of the polling places are under water. No estimate of the damage of the flood is possible but it will be something appalling when all reports are in.

CRIPPLE CREEK, Colo., June 3 .- Cripple Creck is entirely unmolested by the strikers to-day. They have made their last forage for arms, ammunition and supplies have been massed about the fortification, and their number is slightly over 1800. The plan of the strikers is to meet the deputies and make as strong a stand as possible, and if necessary a retreat to Bull Hill, where a scriptural allusions during the past year, but desperate stand will be made. W. J. the following from the Sedalis, Mo., News Palmer, leader of the army that had so is one of the best we have seen. many scrimmages during the building of the And, seeing how the multitudes had voted Denver & Rio Grande road, has command of for him, he cast aside his fishing pole and the force of deputies. He says that any went up into the White House. And when moment the deputies may advance to a point | he was set, and had tapped a fresh bottle of beyond Midland, a battle will only be a beer, he opened his mouth and taught his question of hours.

LONDON, June 3 .- The inventor of the sccalled bullet-proof coat, Herr Dowe, writes poorer. to the Times and says will forfeit the purchase money to anyone who buys his coat if it contains either iron or steel. He declares that his invention is for sale and at a price much under that mentioned in the

newspapers. Mr. Maxim, another inventor of bullet preof material, declares the whole subject of bullet-broof clothing is a farce. He adds he has sufficient evidence to convince him that Dowe's invention contains a hard plate.

Sr. Louis, Mo., June 3 .- The last heard from Kelly's army was at Geneva, which point he passed yesterday evening. Camp was made seven miles below that town. They were hospitably treated and the City | gone. Board appointed a committee to meet Kelly's advance guard and furnish provistons for his men.

LANDER, Wyo , June 2 .- There are some startling developments in the Miner's in the same boat, Delight tragedy. A diary was found on the person of the murdered man, Harvey, which has been examined and shows conclusively that Dixon, the murderer, has grounds for the charge made against Harvey that he had ruined his wife. When the prisoner was told of this diary, he said it was simply a confession on the part of Harvey and es-

tablished the charge made against him. Borse, June 2. - Recent reports received from Wallace are to the effect that two hundred soldiers marched across the mountains from Wallace to the old Mission, and glorify me, who art your political where they took to boats, twenty soldiers father. were left at Wallace and twenty at Wardner. Trouble is liable to arise at any time and affairs are in a critical condition. The water is very high there, five feet higher than was ever known before. The farmers

along the lake are all under water. TORONTO, June 2 .- An investigation was held by Colonel Hamilton, into the St. Thomas flag outrage, last night The session was private and the testimony of ten or twelve citizens, eye witnesses of the affair, who sin against us. Lead us not into tempwas taken.

Indianapolis, June 2 .- An attempt is being made to suppress the rioting of the striking coal miners. Fifteen companies of the State militia and a squad of artillerymen with a gatling gun have gone to Cannelsburg and Shelburn. At Shelburn the situation is serious. The sheriff attempted, with the assistance of a strong posse, to move coal old pants that he would give away. "I am

POETLAND Or., June 1 .- The indications are that the flood in the Columbia is not over and that the worst is yet to come. The river is more than a foot higher than ever before known and the damage will be immense. The fertile bottom lands along the river from the Rocky mountains to the

sea, a distance of 600 miles, are all inundated. The flood has come gradually, which has given residents a chance to move their household goods to places of safety. Along the river for a distance of 200 miles, fish wheels and canning establishments are under water, and it is believed that the loss to canning establishments alone, will reach \$100,000. In this city, the water has risen into basements as far back as Ninth street and more than half the elevators in the city

are stopped for want of power. VANCOUVER, B. C., June 1. - The flood is still raising and the Fraser river is three inches above the highest historical mark, Fraser valley is devastated for over a hundred miles. Though no lives have been lost it is estimated that over 2,000 families are homeless and the property loss is \$3, 000,000. All farming operations will be stopped for the season and the result will be a fearful trade depression.

Las VEGAS, N. M. June 1. - Word has just reached the city of the discovery of a conspiracy in Guadalupe county to destroy the new courthouse recently built at Puerto de Luns. Two holes were found bored through the walls and filled with explosives, while each was supplied with a fuse, the holes then being plastered over, awaiting the time appointed for the work of destruc-

DENVER. Colo., May 31 .- As a result of the rains of the last twenty-four hours, there is not a railway operating into Denver, other than local trains. A thing that complicates matters still more is the wholesale destruction of telegraph wires, nearly all of which are down. Such a flood has not been seen in eleven years according to the reports of railway men. No train went out on the Gulf system to-day and none came in, they being tied up by a big washout at Parker. The same company on the Silver Plume branch have 250 excursionists tied up at Idaho Springe.

Evanston, Wyo., May 31 .- A disastrous wreck occurred here in which two workmen were killed. The west bound freight train, No. 21, ran into a work train, as it was backing into Wahsatch east to side-track for dinner. James Leffingwell, an oldtimer well known formerly at Pioche and throughout the West, and James Lewis were killed instantly on the work train and buried here to-day.

LEAVENWORTH, Kau., May 81 .- A mass meeting was held here this afternoon and was attended by 1000 of the business men of this city. They unanimously resolved to give the miners of this city who desire to continue work, protection in the fullest sense of the word and, if necessary, to resort to physical force for the accomplishment of this end.

#### A POLITICAL SERMON.

Cleveland has furnished the text for many

deciples, saying:

Blessed are the poor; for they shall be

Blessed are the rich; for they shall be made richer, and shall taste of the world. Blessed are they who expect nothing for

they shall not be disappointed. Blessed is the campaign liar; for he is our main dependence.

Blessed are the weak; for they shall be kicked off the face of the earth.

Blessed are they who hunger; for they shall have plenty of company. Blessed are ye when men shall revile you

and persecute you for my sake; for you shall cat official pie at my hands. Blessed is the man who shall bring me another bottle of beer; for this one is all

Blessed is the man who contributes to the campaign fund; for he shall receive a

hundred fold more than he gave. Bleesed are the politicians; for we are all

Blessed is the thief; for he shall have abundant opportunities to steal.

Blessed is the lobbyist; for he pays well and shall have the fat of the land.

Blessed are the bankers; for theirs is the kingdom of earth. Ye are the salt of the earth, therefore

salt down everything in sight. Ye are the light of the world; for you

carry torchlights in every campaign. Let your torchlights so shine before men that they can see the rooster on your hat

Take heed that you provide soup houses for the poor, for a hungry man is liable to

blow you up with dynamite. After this manner you shall pray: "Our political father who art in Washington, Cleveland be thy name. Thy congress comes, thy will be done in the regular seasions as in the extra ones. Give us this day our usual cussing. Forgive us our political sins, even as we forgive the Republicans tation of riches, but deliver us into poverty, for thine is the pie, the officers and the power to vote, forever. Amen."

An exchange tells a story of a tramp who rang a doctor's bell and asked a trim, pretty woman who opened the door, if she would kindly ask the doctor if he had a pair of cars sidetracked there, but was driven away by the strikers.

Office in the County Assessor's room at young woman, and the tramp fainted.

One of the Oregon State Senatorial candidates is seventy-six years of age, and has lived on his farm in the Wilamette valley for forty-eight years.

Indianapolis has mounted some of its policemen on bicycles, and it is claimed Philadelphia Brewery Saloon they can get away from trouble in one-tenth of the time required by an officer on foot.

"The memory has a great deal to do with my corns on the foot I lost at Gettysburg still hurt like the dickens when I stub my wooden leg.

whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipa-tion, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."
